EXAMINER'S AMENDMENT/COMMENT

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The primary reason for the indication of the allowability of claims 1-11 is the inclusion therein of the limitations of obtaining a resonance frequency of a piezoelectric element measured by the measuring means before and after the point of time at which a droplet is to be ejected via said nozzle to said piezoelectric element, when the difference between said obtained resonance frequencies is below a predetermined value. These limitations are neither suggested nor taught by the prior art of record, alone or in combination as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
